

Piping / Flange Cross-over / Valve Packages

Expro has a wide range of piping / flange cross-over / valve sizes and pressure ratings available to meet most of your piping needs. Our piping / flange cross-overs / valves are built to meet the highest standards in the industry. We have 100% traceability on all piping, flanges and valves. All of our piping, flanges and valves are API and NACE certified.

Feel confident that you are receiving the industry's best available piping, flange cross-overs or valves as part of our separation package, or as a rental for your temporary piping needs. Piping / Flange Cross-over / Valve packages are shipped in certified baskets or on certified racks to insure safe transport.
