

Piping / Flange Cross-over / Valve Packages

Expro has a wide range of piping / flange cross-over / valve sizes and pressure ratings available to meet most of your piping needs. Our piping / flange cross-overs / valves are built to meet the highest standards in the industry. We have 100% traceability on all piping, flanges and valves. All of our piping, flanges and valves are API and NACE certified.

Rather our piping, flange cross-overs or valves are part of our separation package, or as a rental to you for temporary piping needs, you can feel confident that you are getting the best available in the industry. Piping / Flange Cross-over / Valve packages are shipped in certified baskets or on certified racks to insure safe transport.
